

**The following committees are required to have a district representative: Volunteer Development, Membership, Exploring, Family Friends of Scouting, Community Friends of Scouting, Product Sales, Community Service, Activities/Camping, Training, and Advancement. The District Chairman will appoint an individual to this committee. To ensure that we have a working council committee, the Council President may remove the individual at any time and require the district to find another appointment. The goal is to ensure that we correctly emphasize the important functions districts need to prioritize.*

All other committees should have representation from across the area it is serving. Meetings should be held in a manner that promotes an appropriate geographic diversity amongst the committee. It is the committee chair responsibility to find committee members and they may not require districts to send representation.
